

## Lexile Conversion Table for Spring 2010 AIMS Reading - High School

A study was conducted in the spring of 2007 that linked the AIMS Reading scale score with The Lexile Framework® for Reading. Use the student's Spring 2010 AIMS Reading scale score to determine the student's Lexile® measure for the 2010-2011 school year.

The Lexile Framework® is an educational tool that has been developed to measure reading comprehension and text difficulty by placing readers and text on the same developmental scale. Lexiles help educators, parents, and students to select targeted materials to improve reading skills and to monitor reading growth across the curriculum, in the library, and at home. Although Lexiles do not equate to grade levels, the measure that a student receives through the assessment link can be used to connect the reader with books, periodicals, and other materials that meet and challenge his or her individual reading ability.

AIMS Reading Scale Score	Reported Lexile Measure	AIMS Reading Scale Score	Reported Lexile Measure	AIMS Reading Scale Score	Reported Lexile Measure
500	60L	631	725L	695	1050L
511	115L	635	745L	699	1070L
530	210L	639	765L	704	1095L
544	280L	643	785L	708	1115L
555	340L	647	805L	712	1135L
564	385L	650	820L	717	1160L
